

FIRE DEPARTMENT FAQs

FIRE DEPARTMENT:

When can I burn?

Mar 15 – May 15 and October – November

What can I burn?

You may only burn yard waste. No trash may be burned at any time. It must be in a container or contained area, such as a fire pit. You must be in attendance at all times and flames must not be higher than 3 feet at any time.

The City of Yale has a volunteer Fire Department. Our ISO rating is 6. Fire runs cost \$1,000.00 and are payable to the City of Yale upon receipt of the invoice. Failure to pay will result in a \$100.00 penalty and the total amount due added to your Summer Taxes, as per City Ordinance.

Does the Fire Department fill pools?

The Yale Fire Department does not fill pool. You can fill your pool with city water, and by keeping track of your beginning/ending meter numbers, be issued a credit for the sewer portion of your water bill. Meter numbers must be called, or turned in, to City Hall in order to receive your credit.
